B. Questions to date:

1. Are the TVM~~s~~ built in or freestanding?

The TVMs are freestanding, no structural changes are necessary.

2. There is no preference for a particular farebox manufacturer; the DTA strongly encourages open competition from all potential vendors.

3. A Word version of the Vendor Compliance matrix is available on the DTA website at [www.duluthtransit.com](http://www.duluthtransit.com) for ease of preparation of the Proposal response.

C. DTA Mobile Application:

Note that the DTA has issued a Request for Proposals for a Mobile Application (#040-19-0005). This RFP is for development of a downloadable app to provide real time bus tracking and route information, trip planning, customer notifications, etc. It is not intended for selling tickets and is a separate scope of work from the option for electronic ticketing included in the Automated Fare Collection RFP.

If there are further questions regarding the separate scope of work for each of the RFPs, contact Nancy Brown at [nbrown@duluthtransit.com](mailto:nbrown@duluthtransit.com), or 218-623-4329.
