

## **REQUEST FOR BIDS**

### **Transit Bus Seat Cushion Insert Replacements**

**DULUTH TRANSIT AUTHORITY**

## **Addendum #1**

June 2, 2022

1. Clarifications to date:

- a. The DTA prefers to have the fabric replaced on the existing DTA seat pans. Presently the DTA has 86 bottom pans and 86 seat backs that are ready to be shipped to the Bidder to be reupholstered. Upon return of the first set of reupholstered inserts, the DTA will return enough seat pan inserts for two more buses to be reupholstered until all seat pans are complete.
- b. Please change the pricing worksheet from cost to "supply" up to 600 transit seat cushion inserts to "re-upholster" seat pans, and to re-upholster up to 600 transit seat back cushion inserts in accordance with the specifications herein. A revised Bid form is attached to this Addendum.
- c. Pictures of the existing seat pan is attached herein.
- d. DTA will be responsible for shipping costs for the seat pans to be sent to and from the selected Bidder. Please DELETE all references in the RFB for shipping costs.
- e. The seats are American Seating Insight model seating.
- f. The cushions are **not** padded. Padding should not be included in the pricing.
- g. The DTA would like all of the seat pans to be recovered by August 31, 2022 but will work with the Bidder on exact timing once the lead time for the selected fabric is determined.
- h. The fabric design will be determined by DTA staff. No vinyl fabric is being considered.
- i. Please delete any references in the RFB to installation. The DTA will be removing the existing seat inserts and re-installing them, no installation is required of the Bidder.
- j. The DTA is requesting seat fabric that is suitable for transit use but does not require test results or laboratory criteria stating the durability qualities of the fabric. The DTA may, however, request references to evaluate the performance of the fabric in other transit uses.
