

**REQUEST FOR BIDS**  
**Tunnel Maintenance and Repair**  
**DULUTH TRANSIT AUTHORITY**

**Addendum #2**

July 5, 2023

1. Please revise the Section 6 of the Technical Specifications as follows:

REMOVE Specification B 2 f:

~~“ f. Reline the 18-inch corrugated metal pipe with suitable lining that preserves the hydraulic performance and capacity of the pipe. Lining material must be able to sustain the pipe for a minimum of ten years. Repairs must not displace or distort the existing pipe to ensure maximum use of the pipe. Materials to reline the pipe or secure it to the host pipe must not flow into the creek before it dries.~~

This work will be completed in a future repair.
