FOR

BUS WASH SYSTEM

ADDENDUM 3

November 4, 2025

This addendum provides information in response to clarification questions received.

1. Electricity - 150-amp and another 80-amp breakers supply the bus wash.
2. Water Line PSI - We see 85 psi on dedicated water line coming into the wash bay.
3. Daily Bus Wash Usage - Quantity 15 of 40' BRT, quantity 25 of 40' Regular (includes electric buses), quantity 10 of paratransit (Arboc style).
4. Current Spotting Issues - We do not currently have any spotting issues.
