**Duluth Transit Authority**  
**Full-Service Rental Program: Uniforms, Rags, and Floor Mats**  
**RFP# 2025.10.20 – Addendum 1**

This addendum covers the following clarifications and changes:

1. Uniform Technical Requirements

- a) **Sewing method** - For emblems, patches or reflective striping, heat sealed method will be accepted as an alternative to sewing.
- b) **Wrinkle Free** - All mentions of wrinkle free are replaced with wrinkle resistant.
- c) **Uniform Repairs** (see section 6. D-2) - Damages due to work-related activities will not be considered willful abuse and will be repaired by vendor at no charge. If vendor is not able to repair garment, then the vendor shall replace the garment with a new garment at no cost. Unit price in proposal shall cover these scenarios.
- d) **Shelter Technician Uniform** (section 6. B-7) - High visibility pants are acceptable, but rest of uniform must meet Ansi class 2.

2. Proposal Price Sheet (Uniforms) – Vendor rental pricing shall be all-inclusive and meet all requirements of the technical specifications listed in RFP & addendum 1. No additional costs will be allowed to be invoiced separately (i.e. service charge, delivery charge, size premiums, advantage/easy care insurance, lockers, laundry bags, clips, etc.).

3. Mops - These items will not be a deciding factor in contract award. We do not have exact number that will be required. Please provide base pricing for each size you offer (i.e. 24", 36", 48" and 60"), for quantities under 5 for each.

4. DTA Logo Mat - Removed from scope and replaced with 4X6 standard mat.

5. Certificate G. Responsible Contractor (section 5. G) - Removed from RFP.
